

Unit 5 – Reflection

During Unit 5 I continued gathering and reading literature for my literature review assignment. Additionally, I completed a lecturecast in the interview and survey design, however, as I am not planning to collect data for my assignment, I did not utilise it. Moreover, I completed a case study in inappropriate use of surveys, such as the Cambridge Analytica scandal.

Overall, in Unit 5 I started feeling more pressured to complete my upcoming literature review assignment on time.
