## Feedback on team dynamics

- How effectively did your team work?** It was effective, but not with all the team members. There was quite a big divergence between the people who provided helpful insights, and people who did not.
- Were there any behaviours of your team members which were particularly valuable or detrimental to the team?** Most of the team members were helpful and insightful. A team member even undergone a surgery but still stayed available in our group chats.

3. **What did you learn about working in a team from this project that you will carry into your next group/team experience?** Due to the nature of this assignment, team members did not have clear responsibilities and the assignment was mostly done with personal initiative. For the next assignment, we will set clear tasks to all team members so everyone will provide a fair amount of work.

### My greatest strengths as a team member are:

I am a hard worker with a problem solving skills mindset. In particular, in this assignment we had a few times when we did not know how to proceed, and I was able to provide some insight to all members. Additionally, I am proactive and I take initiative, resulting in completing any tasks well within the deadline.

**The group work skills I plan to work to improve are:**

As a perfectionist, and having been working on my own for a long time, working with a team made me feel that I had lost control, as some things were now done the same way I would have done them. However, this assignment helped me grow my team and cooperative spirit.
