

Seminar 1 Preparation

Read the Behaviour Driven Development (2020) pages and then use the Gherkin language to create a Gherkin sequence that addresses ONE of the following examples:

- Using a new coffee making machine.
- Interfacing with a new SatNav system.
- Using a computer running the Linux operating system.
- Getting familiar with a new vehicle.
- Creating a batch or shell script.

Your response should consist of at least three scenarios describing different roles such as administrator, user, driver and so on.

Using a new coffee making machine.

Scenario 1.

Scenario: Old coffee machine needs to be replaced.

Given I was using a coffee machine before, I will use a new one.

When I buy a new coffee machine

Scenario 2.

Scenario: A company buys a new coffee machine using a voucher.

Given A company received a voucher and needs a coffee machine.

When it uses the voucher to buy the machine.

Scenario 3.

Scenario: I will use a new coffee machine that uses different coffee types.

Given I bought a coffee machine that uses different coffee types.

When I buy the coffee type required.
